---

Skills Summary

Frontend Development: HTML5, CSS3, JavaScript (ES6), Fetch API, ReactJS, AngularJS, Quasar, Ant Design, Bootstrap, Materialize

Backend Development: Node.js, Express.js, RESTful APIs, JSON

Mobile Development: React Native, Expo, Android Studio, Xcode, iOS Simulator, Android Emulator

Databases: MySQL, MongoDB

Tools & Development Frameworks: Redux Toolkit, Postman, Figma, VSCode, Sublime Text, WordPress, Unit Testing (Jest, Mocha, Chai)

Version Control & Deployment: Git (CLI & GUI), GitHub, GitLab, Gitea, Heroku, Xcode, Transporter, TestFlight, App Store Connect, Google Play Console

Project Management & Collaboration: JIRA, Trello, Slack, Backlog, eiMAN

Cloud Services: Firebase, AWS EC2, AWS S3, AWS Lambda, AWS Dynamo DB, AWS SNS, AWS SES, AWS SQS

Operating Systems: Windows, Linux (Ubuntu), macOS

Development Methodologies: Agile/Scrum

Additional Skills: Problem-solving and debugging, Time management, Multitasking, Cross-team collaboration

---

Work Experience

Mobile App Developer Team Lead

MNLeistung Inc. (August 2025 – Present)

- Led the development and maintenance of cross-platform mobile applications for MNLeistung's eiPrograms using React Native, Ionic, Android Studio, and Xcode, overseeing features from design and implementation to release.
- Built, packaged, versioned, and deployed production-ready mobile applications (eiRIS Employee Portal, eiRIS Biometrics, eiCAER, eiMAN, eiBUY) via Google Play Console, App Store Connect, TestFlight, and internal distribution tools, ensuring stable and compliant releases.
- Designed and implemented UI/UX improvements for the eiCAER mobile app, significantly improving usability, accessibility, responsiveness, and user experience across multiple device types.
- Integrated RESTful APIs to ensure reliable data flow, efficient synchronization, and seamless mobile-to-server communication across all supported platforms.
- Led Agile team operations, including Daily Scrums, sprint planning, performance tracking, and blocker resolution, while managing release processes and documentation to maintain high standards of quality, stability, and maintainability.
- Collaborated closely with backend engineers, QA teams, manager, and marketing stakeholders to deliver high-quality features on schedule and align technical solutions with business goals.

Software Engineer (SE3)

Pointwest Innovations Corporation (July 2021 – February 2024)

- Developed web and iOS applications for a U.S.-based motor vehicle diagnostics company.
- Built, tested, and published customer and admin apps for AP Cargo using Xcode, Expo, Transporter, TestFlight, and App Store Connect.
- Integrated frontend with backend services using Node.js and AWS.
- Wrote unit tests with Jest to maintain code quality.
- Participated in Agile ceremonies to ensure timely delivery.

Software Developer

Codegum Inc. (April 2019 – April 2020)

- Designed and maintained a full-stack web application for an international agricultural client.
- Collaborated with cross-functional teams for sprint planning and reviews.

- Integrated frontend components with backend APIs.
- Wrote reusable and maintainable code for new features.
- Participated in daily Agile stand-ups and retrospectives.

Key Projects

AP Cargo (May 2023 - February 2024) — Web and Mobile Developer (React Native / React)
- Developed customer and admin-facing web/mobile apps using React Native and Redux Toolkit in a monorepo setup.
- Translated Figma designs into responsive UI components.
- Wrote unit tests with Jest to ensure component reliability and code quality.
- Integrated frontend with backend services (Node.js, AWS, MySQL).
- Managed the build, testing, and publishing of the apps using Xcode, Transporter, TestFlight, App Store Connect, Expo, and Android Studio.
- Participated in Agile ceremonies and daily stand-ups with cross-functional teams to align on progress and deliverables.
  Tech Stack: React Native, Redux Toolkit, Node.js, AWS, MySQL, Jest, Xcode, Transporter, TestFlight, App Store Connect, Expo, Android Studio

Diesel Repair App iOS (November 2021 – May 2023) — Mobile Developer (Frontend)
- Implemented the frontend of a diagnostic iOS application using Swift, Quasar, and JavaScript.
- Integrated AWS Cognito for secure authentication.
- Managed the build and publishing process using Xcode, Transporter, TestFlight, and App Store Connect.
- Worked within an Agile team, attending daily stand-ups and coordinating with team leads to align on progress and deliverables.
  Tech Stack: Swift, JavaScript, Quasar, AWS Cognito, Xcode, Transporter, TestFlight, App Store Connect

Pointwest Technologies Corporation Website (July 2021 – October 2021) — WordPress Developer
- Improved website design, performance, and structure using WordPress, PHP, and CSS.
- Collaborated with internal stakeholders and participated in daily stand-ups. *Tech Stack: WordPress, PHP, CSS*

G-Force Kiosk (March 2020 – April 2020) — Frontend Developer
- Built the frontend for a kiosk application using ReactJS and Ant Design.
- Worked with backend developers to integrate Node.js and MongoDB services.
- Participated in daily collaboration meetings. *Tech Stack: ReactJS, Ant Design, Node.js, MongoDB*

SMS Blaster (January 2020 – February 2020) — Frontend Developer
- Created a real-time SMS broadcasting web app using ReactJS, Ant Design, and Node.js.
- Ensured consistent delivery of features through sprint planning and daily Agile check-ins. *Tech Stack: ReactJS, Ant Design, Node.js*

Paiwi Online (June 2019 – December 2019) — Software Developer
- Enhanced features and fixed bugs for a livestock investment web app.
- Completed 5–10 stories per sprint on average.
- Worked with AngularJS, Node.js, and MongoDB in an Agile development environment.
- Participated in sprint planning, stand-ups, and retrospectives. *Tech Stack: AngularJS, Node.js, MongoDB*

Education

Zuitt Coding Bootcamp — Quezon City
Full-Stack Web Development Program, April 2025 – June 2025

Zuitt Coding Bootcamp — Makati City
Full-Stack Web Development Program, November 2018 – February 2019

Southern Mindanao Colleges — Pagadian City
Bachelor of Science in Computer Engineering, June 2013 – March 2018
